

Hola!

At Sponge, we see language as a passport to global citizenship. Students learn to see the world through a different lens while acquiring language skills and the confidence to use them.

Young learners are especially primed for language learning—research shows that students are 70% more likely to gain fluency when they begin in elementary school or younger. Classes will be immersion based, and taught by a native speaker using games, art, drama and movement to help children build language skills! We believe the best way to learn a language is to be immersed in it and having fun!

We're pleased to offer the following classes at Arthur Jacobsen Elementary this season!
